## SOFTWARE & CLOUD ARCHITECT

Software Architect • Cloud Architect • Solutions Architect • Engineering Leader  
System Design and Architecture • Cloud Infrastructure • AI-Driven Development  
Co-Founder • GCP Professional Cloud Architect • AWS Solutions Architect  
Cloud-Native Solutions • Building High-Performing Teams • Solving Complex Problems

## WORK EXPERIENCE

### Sabbatical & AI-Driven Product Development, India

Jan 2024 - Present

*Planned sabbatical to pursue life coaching ([ICF Certified](#)) and delivered 250+ coaching hours to tech leaders across multiple industries.*

*Built two SaaS products using AI:*

- *Alpha Flow (a U.S. equities trade signal platform).*
- *Peer Coaching Network (a scheduling platform for trainee coaches).*

### Sibros Technologies, San Jose, CA

Feb 2020 - Nov 2023

#### Senior Software Engineer / Senior Solutions Architect

- Led the design and implementation of ODX, enabling remote diagnostics for millions of vehicles and reducing the time to diagnose issues in vehicles
- Designed and implemented cloud infrastructure using Infrastructure as Code (IaC), enabling scalable and secure deployment of cloud-native applications across AWS and GCP
- Developed core libraries and cloud-native microservices, creating customized environments for enterprise customers, improving deployment efficiency
- Established and led a Solutions Architecture team focused on customer engagement and solution prototyping, contributing to a significant increase in closed deals
- Hired and mentored a global team of backend, cloud infrastructure, and platform engineers, improving platform security, scalability, and incident response effectiveness

### Helix RE, Inc., San Mateo, CA

Oct 2017 - Feb 2020

#### Co-Founder / Director of Engineering

- Co-founded Helix RE, scaling the platform to achieve \$1.5M in revenue within three years
- Architected and implemented cloud infrastructure using IaC, enabling seamless scalability and reducing operational costs
- Designed a Kubernetes-based distributed processing platform, enabling parallel processing of 75 GB workloads and multi-billion-point cloud datasets

- Developed geometry generation pipelines using Autodesk Forge API and Revit Plugins, reducing 3D model creation time from 8 weeks to 5 days
- Designed streamable PDAL pipelines and an automated deviation detector for 3D models, reducing QA effort and shortening BIM model review cycles

## Past Experiences

Nov 2004 - Oct 2017

- Containerized Hadoop and Spark components using Docker, deploying them on GKE and optimizing resource utilization of in-house servers (**Ericsson, US**)
- Designed, developed, and deployed Spring Boot-based REST APIs as microservices on AWS, managing infrastructure using Ansible and CloudFormation (**TESCO, UK**)
- Optimized the insurance enrollment pipeline, achieving an 8x speed improvement, and led the migration of 350+ applications to IBM WAS, ensuring zero downtime (**Legal & General, UK**)
- Developed a custom REST framework for the first AMEX iPhone app, delivering 12 APIs and contributing to its 4.9-star rating (**American Express, IN**)

## EDUCATION

---

### ENGINEERING DEGREE

- Bachelors in Computer Science, Madras University, India

### CLOUD CERTIFICATIONS

- Google Cloud Certified - Professional Cloud Architect
- AWS Certified Solutions Architect - Associate

## TECHNOLOGIES

---

**Programming:** Go, Python, Java, SQL

**Cloud:** AWS, GCP, Terraform, Kubernetes, Docker

**Architecture:** Distributed Systems, Microservices, REST APIs, Cloud-Native, IaC

**Domains:** Automotive, Connected Vehicle Solutions, Architecture Engineering & Construction (AEC), Retail, Insurance, Financial Services, IT Consulting, Enterprise Solutions

**Engineering Practices:** Design Principles, Clean Code, Test-Driven Development (TDD), Observability, Performance Optimization
